RAXWELL

KN95 / N95
FACE MASK
(WITH FILTER OPTION)

PREMIUM RESPIRATORY PROTECTION

PRODUCT OVERVIEW

RAXWELL KN95 / N95 Mask is a high prempl, respiratory protection solution designed for healthcare, industrial, and daily protection use. Engineered with multi-layer filtration and ergonomic design for superior safety and comfort.

KEY FEATURES

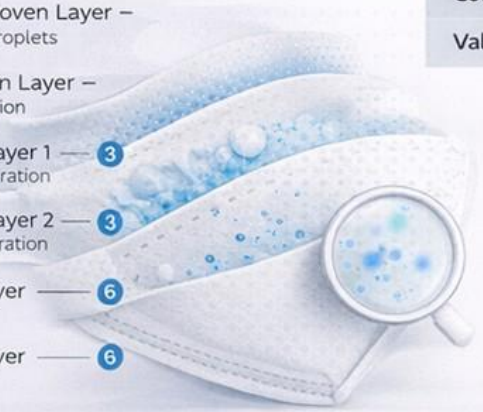

- **5-Layer** Advanced Filtration
- **≥95%** Particle Filtration Efficiency
- Breathable & Skin-Friendly Fabric
- Adjustable Nose Clip for Tight Seal
- High Elastic Ear Loops for Comfort
- Optional Exhalation Valve (Filter Model)
- Lightweight & Foldable Design

TECHNICAL SPECIFICATIONS

Product Name	RAXWELL KN95 / N95 Mask
Filtration Efficiency	≥95%
Layers	5 Ply (Non-woven + Melt blown)
Material	Non-woven (abric + Melt blown filter
Certification	CE / FDA / ISO (Customizable branding)
Design	Foldable / 3D Fit
Size	Universal Fit (Adult)
Usage	Disposable
Color	White (Custom colors available)
Valve Option	Available (optional)

STRUCTURE | 5-LAYER PROTECTION

- Outer Non-Woven Layer – blocks dust & droplets
- Hot Air Cotton Layer – additional filtration
- Melt-Blown Layer 1 — 3 — Core particle filtration
- Melt-Blown Layer 2 — 3 — Eilter sarticle filtration
- Inner Soft Layer — 6 — 9tin comron
- Inner Soft Layer — 6 — Skin comfort

APPLICATION AREAS

- Individual Packed
- Box Pack (10 / 25 / 50 pcs)
- Bulk Packaging (1000+ pcs)
- OEM Branding Available

QUALITY & COMPLIANCE

- International Safety Standards
- Skin-Friendly & Hypoallergenic
- Strict Quality Inspection
- Bulk Supply Capability

RW6200

Activated Carbon Half Face Respirator

DATASHEET

RAXWELL

Product Overview

A reusable half-face respirator designed with a dual-filter system combining activated carbon cartridges and electrostatic cotton filters. Provides protection against airborne particles, organic vapors, and various harmful gases.

Key Features

Double Protection System
- Activated carbon filter box
- Electrostatic adsorptision filter cotton

High Filtration Efficiency
- Up to 99.97% filtration

Reusable Design
- Replaceable filter cartidges and cotton filters

Ergonomic Fit
- Adjustable straps for a tight face seal

Dual Cartridge System
- Balanced airflow and improved breathing comfort

Filtration Capabilities

Gases & Vapors

- Organic vapors
- Chlorine (Cl_2)
- Hydrogen chloride
- Chlorine dioxide (ClO_2)
- Sulfur dioxide (SO_2)
- Ammonia / Methylamine
- Formaldehyde (CH_2O)
- Hydrogen fluoride
- Gasoline fumes
- Benzene and chemical vapors

Particulates

- Dust
- Smoke
- Pollen
- Fine particles (PM10, PM2.5, PM0.3)
- Non-oily particles

Technical Specifications

Product Type	Specification
Half Face Respirator	≥ 999.97%
Elitration System	Exhalation Valve
Dual side cartridges.	Yes
Silicone / TPR + ABS	
PM0.3, PM2.5, PM10	

Filtration System Structure

Half Face Respirator	≥ 99.97%
Filter Type	
Activated Carbon + Cotton Filter	
Yes (replaceable filters)	
Dual side cartridges	
Yes	
Silicone / TPR + ABS	

Applications

- Painting and spraying
- Chemical handling
- Industrial work environments
- Construction and dust exposure
- Organic vapor environments
- DIY and home improvement

Installation Instructions

4. Repeat for opposite side

Maintenance

- Replace filter cotton regularly (based on use)
- Replace carbon cartridges when odor is detected
- Clean mask body after use
- Store in a dry, sealed environment

RAXWELL

RESPIRATOR MASK DATA SHEET

PREMIUM PROTECTION

Provides excellent protection against harmful particles.

COMFORTABLE FIT

Soft silicone facepiece for a comfortable, secure fit.

REPLACEABLE FILTER

Uses replaceable cartridge with activated carbon filter

SPECIFICATIONS

Model	RS-PM01
Material	Silicone, TPE, ABS
Filter Type	Activated Carbon
Protection	Dust, Particulates, Organic Vapors
Certification	NIOSH Approved
Weight	150 g (5.3 oz)
Color	Blue & Grey

KEY FEATURES

- ✓ Soft and flexible silicone face seal
- ✓ Adjustable, comfortable head straps
- ✓ Replaceable activated carbon filter cartridge
- ✓ Delyust adjutraste sima for damage or wear.
- ✓ Inspect the mask regularly for damage or wear.
- ✓ Replace filter cartridge, as per manufacturer's guidelines.

RAXWELL

SPECIFICATIONS

MAINTENANCE INSTRUCTIONS

- ✓ Remove the filter cartridge before cleaning.
- ✓ Clean the mask with mild soap and warm water.
- ✓ Allow all components to air dry completely.
- ✓ Inspect the mask regularly for damage or wear.
- ✓ Replace the filter cartridge as per manufacturer's guidelines.

DESCRIPTION

The RS-PM01 Respirator Mask is designed to provide premium protection against hail particles, clean and organic vapors. Featuring a sort, form-fitting silicone, facepiices replaceable activated carbon filter cartridge, and adjustable head straps, this mask ensures optimal confort.

RAXWELL

FULL FACE RESPIRATOR MASK

Protect Yourself from Organic Vapors, Dust, Chemicals, Pesticides, and Gases

KEY SPECIFICATIONS

Brand:	**RAXWELL**
Model	RX6800
Size	Universal Fit
Material	Food-grade silicone and polycarbonate
Standards:	**Meets EN 136, CE**
Certification:	**CE Certified**
Features:	Dual filtration system with 6001CN Organic vapor cartridge, 5n11 particulate filter cotton, 501 side covor, 501 filter cover, Carbon dioxise.
Compatibility:	Protects against organic vapors, dust, chemicals, benzene, acetone, ether, gasoline and gaaone
Head Straps:	Adjustable 4-point headband, silicone material
Package Includes:	**1 x Full Face Mask** **2 x 6001CN cartridges** 2 x 5n11 cotton filters 2 x 501 filter covers 8 x 2091CN P100 filters

KEY FEATURES

1. **Dual Filtration System**
   6001CN organic vapor cartridges and 5n11 particulate cotton filter
2. **Food-Grade Silicone Facepiece**
   Made of soft, safe food grade silicone for comfort and secure fit
3. **Wide, Clear Field of View**
   Large curved screen offers a clear fog-free and wide field of view
4. **Adjustable 4-Point Headband**
   Adjustable, secure design with durable, easy-to adjust elastic straps.

RESUABLE, RELIABLE BREATHING PROTECTION

Organic vapor | Carbon dioxide | Dust | Benzene | Acetone | Ether | Gasoline

Raxwell® ChemPro Suit

Chemical Pant & Shirt

1. Product Description

Raxwell ChemPro chemical suits are engineered for enhanced comfort and superior protection in hazardous environments. Designed to provide reliable resistance against a wide range of acids, alkalis, and industrial chemicals, making them ideal for extended industrial use.

2. Key Features

This product is made from durable, high tear-resistant PVC-coated fabric that offers both strength and flexibility. Its lightweight design ensures comfort during long working hours, while the ergonomic fit allows easy movement. It provides excellent resistance against acids, alkalis, and various industrial chemicals, making it suitable for demanding environments. The heat-sealed and reinforced seams enhance leak protection, and the reusable surface is easy to clean. With customizable options, a wide range of sizes, and a long service life, it is designed to meet diverse industrial needs.

3. Material & Construction

Material: PVC-coated polyester . Color: Green Seam Type: Heat-sealed, Reinforced welded seams

4. Suitable Applications

- Chemical processing plants
- Industrial cleaning operations
- Hazardous material handling
- Oil & gas operations
- Petrochemical industries
- Marine and shipping environments
- Waste management
- Tank and vessel cleaning

5. Certification

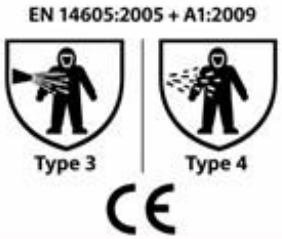

EN 14605:2005 + A1:2009

Type 3: Liquid-tight protective clothing

Type 4: Spray-tight protective clothing

RAXWELL

RAXWELL® Series RW250 Protective Coveralll

TECHNICAL DATA SHEET

1. Product Overview The RAXWELL® Series RW250 is a high-performance disposable protective coverall designed to provide reliable protection against hazardous particles, light liquid chemical splashes, and biological contaminants.

2. Material & Construction Fabric: Microporous PE laminate with SBPP | Weight: 60 gsm | Multi-layer breathable structure | Bound seams | Antistatic finish

3. Design Features Elastic wrists, waist, ankles | 2-way zipper with storm flap | Thumb loops | Ergonomic fit

4. Protection & Compliance Type 5 (EN ISO 13982-1) | Type 6 (EN 13034) | EN 14126 | EN 1073-2 | EN 1149-5

5. Applications Chemical handling, pharma, agriculture, cleanrooms, automotive, veterinary, cleaning

6. Size & Color Sizes: l to 3XL | Color: White

8. Key Benefits Lightweight, breathable, durable, strong barrier protection, low linting

High-Visibility Safety Vest

سترة أمان عالية الرؤية

RAXWELL

Product Overview

- Premium high-visibility safety vest
- Designed for professional and industrial use
- Enhanced visibility for day and night safety
- Lightweight, durable, and comfortable

Product Code: RW-V001

Technical Specifications

- Material: 100% Polyester
- Fabric Weight: 100 GSM (Premium Grade)
- Reflective Tape: 2 × Silver Retro-Reflective Strips
- Color: Fluorescent Yellow
- Sizes: M – XXL

Applications & Packaging

- Construction & Road Safety
- Warehousing & Logistics
- Industrial Operations
- Events & Emergency Use
- Individual polybag
- 200 pcs per carton

High-Visibility Safety Vest

سترة أمان عالية الرؤية

RAXWELL

PRODUCT DATA SHEET

Product Name: High-Visibility Safety Vest
Model: RW-V002

Description:
High-visibility safety vest designed to improve wearer visibility in daylight, low-light, and night-time environments. Suitable for construction, roadwork, logistics, and industrial applications.

Key Features:
- Fluorescent yellow fabric
- 360° reflective tape
- Lightweight and breathable
- Sleeveless design
- Front opening with reinforced edging

Material:
100% Polyester, approx. 120–130 gsm

Color:
Fluorescent Yellow with Silver Reflective Tape

Sizes: S / M / L / XL / XXL

Applications:
Construction, Road Work, Warehousing, Traffic Control, Utilities

Care Instructions:
Wash max 40°C, do not bleach, do not iron reflective tape

Packaging:
Individual polybag, 200 PCS BOX

SAFETY HELMET – PIN LOCK

Model: RWSH002

TECHNICAL DATA SHEET: RAXWELL SAFETY HELMET

1. PRODUCT OVERVIEW Brand: Raxwell Product: Industrial Safety Hard Hat Model Series: Vented Cap Style Primary Material: High-Impact ABS / HDPE (High-Density Polyethylene)

2. SHELL SPECIFICATIONS Design: Vented crown to facilitate airflow and reduce heat buildup. Impact Protection: Top-impact reinforced ribbing for energy absorption. Visibility: Low-profile short brim for improved upward peripheral vision. Accessory Interface: 30mm universal side slots for ear muffs and visors. Water Management: Integrated rain trough to prevent water from dripping onto the face.

3. SUSPENSION OPTIONS The Raxwell series offers two distinct internal suspension systems:

A. Ratchet Suspension (Premium) Adjustment: One-handed rotating knob. Cradle: 4-point or 6-point heavy-duty fabric webbing. Fit: Provides a secure, snug fit even when bending over.

B. Pin-Lock Suspension (Standard) Adjustment: Manual "snap-in" sliding plastic tab. Cradle: Lightweight molded plastic suspension. Fit: Cost-effective and durable for high-volume use.

4. COMFORT & SAFETY STANDARDS Sweatband: Replaceable, moisture-wicking foam brow pad. Compliance: Designed to meet EN 397 ANSI/ISEA Z89(Vented models are conductive; not for electrical use).

5. USAGE & CARE Inspection: Check for cracks, dents, or discoloration before every shift. Cleaning: Use mild soap and water only. Avoid chemical solvents. Storage: Store in a cool, dry place away from direct sunlight (UV rays). Service Life: Shell should be replaced every 2-5 years depending on usage intensity.

RAXWELL

RAXWELL Helmet Suspension System

Description:

Adjustable helmet suspension system designed to provide comfort, stability, and a secure fit inside safety helmets.

Product Data Sheet – Safety Helmet (Industrial Use)

Product Description Industrial safety helmet designed to protect the wearer against impact and penetration hazards. Supplied with a harness preassembled to prevent damage during shipment. Suitable for construction, industrial, and general safety applications.

Standards & Compliance European Standard: EN 397 Meets requirements for shock absorption, penetration resistance, flame resistance, electrical insulation up to 440 V AC, molten metal splash resistance, and lateral deformation resistance.

Construction & Components Shell Material: High-impact resistant plastic Harness: Internal suspension harness (preassembled) Chin Strap: Adjustable snap-on chin strap Fastening System: Fast-Track suspension with ratchet-type adjustment

Size & Fit Adjustable head size via rear ratchet system Comfortable and secure fit with adjustable headband

Care & Maintenance Inspect before each use for cracks or damage. Clean with mild detergent and warm water only. Do not use solvents or abrasives. Replace helmet after severe impact.

Product Lifetime Shell: Up to 5 years from manufacturing date Suspension: Replace every 12 months

Storage Store in a cool, dry place. Avoid sunlight, extreme temperatures, and chemicals.

NO PARKING REMOVABLE BOLLARD

DATA SHEET

RAXWELL

PRODUCT OVERVIEW

The No Parking Removable Bollard is a durable and high-visibility parking control solution. Designed to prevent unauthorized parking, it features a manual lock mechanism for easy installation and removal. Ideal for private driveways, parking spaces, and restricted areas.

KEY FEATURES

- Clearly displays a No Parking symbol
- Heavy-duty steel construction with powder coating
- High visibility with yellow finish and baick reflecive strip
- Removable design for flexible access control
- Manual lock for secure and stable positioning
- Suitable for indoor and outdoor use

Purpose & Usage

Chevron signs are used to guide drivers through sharp curves or horizontal alignment changes. Installed on the outside of curves, they are oriented approximately at right angles to approaching traffic. At least two signs should be visible at all times; minimum of three per curve.

Visibility & Reflectivity

High-quality retro-reflective sheeting per EN 12966 ensures night and low-light visibility. LED studs may be integrated for enhanced guidance.

Layout & Colors

Bold red chevron on a yellow (preferably fluorescent) background. In Saudi Arabia, bilingual rules apply, but chevron-only signs generally do not require text.

WATERPROOF POLY TARPAULIN

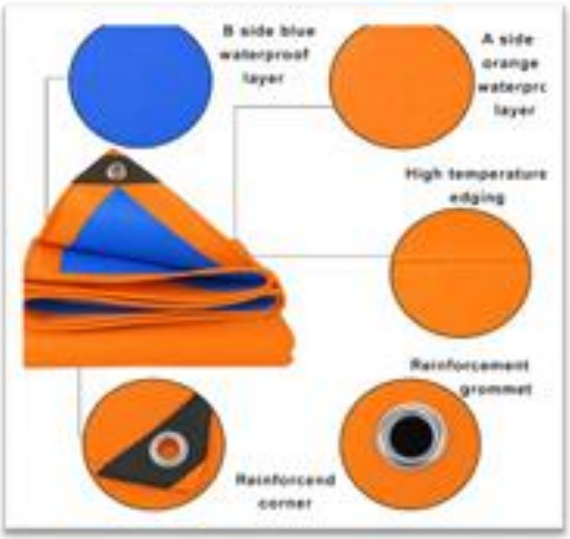

شراع متعدد الأغراض لونين

RAXWELL

Product Datasheet – Heavy Duty Tarpaulin

Product Name:

PE Tarpaulin (Polyethylene Tarpaulin): A general term for tarpaulins made from polyethylene. Usually woven HDPE (High Density Polyethylene) fabric is used as the base, and then laminated with LDPE (Low Density Polyethylene) film on both sides to make it waterproof and durable.

Color   **GSM** - 180

Size			
10*10	10*15	15*15	20*20

Tarps Details

A good tarp must be tear-resistant

Million PE tarpaulin is made of high-quality polyethylene material, thickened, wear-resistant, and tear-resistant.

A good tarpaulin must be made of good material

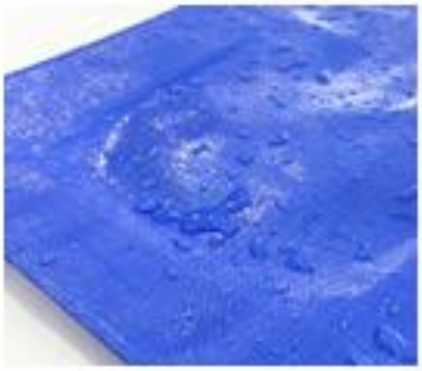

Million PE tarpaulin is made of high-quality polyethylene, has long service life, is double-sided coated, and is double-sided waterproof

Million PE tarpaulin, double-sided film, double-sided waterproof

The lotus leaf type collects water to improve the waterproof and impermeable performance of the PE tarpaulin. When the water droplets fall on the surface of the tarpaulin, the water droplets gather immediately, making it waterproof and impermeable. The water droplets immediately slide off with a slight shake.

RAXWELL

WIND SOCK & FRAME
DATA SHEET

Precision Wind Indication.
Built for **Reliability.**

WIND SOCK

High-visibility wind sock with reflective bands for enhanced safety and performance.

FLAGPOLE MATERIAL	Waterproof Nano Polyester Fabric
SIZE	45 × 25 × 150 cm
FEATURES	• Accurately indicates wind direction in critical zones • Provides a clear visual estimate of wind speed • High-visibility reflective bands for day & night use • Durable, weather-resistant construction
PACKING	50 pcs / carton

HEAVY DUTY WIND SOCK FRAME (WSS)

Robust and corrosion-resistant wind sock frame for industrial applications.

MATERIAL	High-grade Stainless Steel
DIAMETER	45 cm
FEATURES	• Manufactured from premium stainless steel for long service life • Corrosion-resistant and waterproof design • Smooth rotation even at low wind speeds • Engineered for durability in harsh environments
PACKING	10 pcs / carton

LOCKOUT / TAGOUT SAFETY DEVICES
DATASHEET

RAXWELL

1. 4-POINT LOCKOUT DEVICE (4 POL – Multi Lock System)

Product Description

A-multi-user lockout device to allow up to **4 workers** to apply individual locks, ensuring equipment remains isolated until alal personnel

Key Features

- Supports 4 padlocks simultaneously
- Durable industrial-grade **plastic / nylon** body
- Electrically **non-conductive** (ideal for electrical safety)
- Compact, lightweight and easy to install
- High visibility yellow safety color

TECHNICAL SPECIFICATIONS		TECHNICAL SPECIFICATIONS
Material	Reinforced Nylon / ABS	Specificationts ⊠
Lock Capacity	4 Padlocks	• 1 Pedalors • PvP ABS
Temperature	-20°C to +80°C	• Color
Color	Yellow	• Electrical/Maintenance Safety

2. 2. STEEL SAFETY PADLOCK (Heavy-Duty Type)

Product Description

- Hardened steel shackle safety padlock designed for harsh industrial environments requiring Hgneteesigen
- Precision key mechanism
- Available in multiple colors (**Red / Yellow**)
- Laser marking / ID tagging optional

TECHNICAL SPECIFICATIONS		TECHNICAL SPECIFICATIONS
Shackle Material	Nylon (Non Conductive)	• Applications:
Body Material	ABS / Plastic	• Elechical panels
Voltage Resistance	Surtable for dectrical use	• Circuit breakers equipment
Color Options	Yellow / Red	• Outdoor and rugged environments
Weight	Lightweigtn:	

3. 3. PLASTIC ELECTRICAL SAFETY PADLOCK (Non-Conductive Type)

GENERAL COMPLIANCE & SAFETY

- Conforms to Lockout/Tagout (LOTO) safety standards
- Help meet OSHA safety requirements
- Prevent sccidental energization or startup

- Electrical panels
- Circuit breakers
- Switchgear lockout

PACKAGING & CUSTOMIZATION

- Individual / Bulk packing available
- Custom logo printing
- Serial numbering a|sheling options

RECOMMENDED USCE

- ✔ Always use with proper LOTO precedures
- ✔ Remove only after task completion

PRODUCT DATA SHEET

RAXWELL

Pro-Sound

RW66USB

Power Megaphone

General Information

- **Brand:** Pro-Sound
- **Model:** ER-66USB
- **Product Type:** Handheld Megaphone
- **Design:** Hand grip type with detachable microphone (convertible to shoulder-type use)
- **Warranty:** 6 Months

Applications

- Schools & educational institutions
- Government organizations
- Construction sites
- Factories & industial areas
- Public gatherings & crowd control

Key Features

- USB/SD Card Reader: Yes
- Bluetooth: No
- Siren Function: Yes
- Voice Recording: Yes (approx. 15 seconds)
- AUX Input: Yes
- DC Input: 12V supported
- Detachable Microphone.Yes
- Dual Power Options: Yes

Material & Finish

- Horn & Handle: ABS resin (white)
- Battery Case: ABS resin (blue)
- Strap: Black shoulder strap

Audio Performance

- Rated Output Power: 25 Watts
- Maximum Output Power: 50 Watts
- Audible Range: Up to 600 meters
- Amplification: Built-in transistor circuit
- Sound Quality: Enhanced with polyimide diaphiagm

Power Supply

- **Option 1:** 8 × 1.5 V Size C alkaline batteries
- **Option 2:** 1500mAh lithium rechargeable battery

Physical Specifications

- Dimensions (Product): 230 mm (W) × 270 M) × 330mm (
- Dimensions (Packaging): 255 mm (W) × 370 (M) × 230m
- Net Weight: 1.6 kg (excluding batteries)

PRODUCT DATA SHEET

RAXWELL
GRAVITY-FED EYEWASH TANK – 34 LITERS

1. PRODUCT OVERVIEW

Code **RWEYE35**

The **Raxwell Gravity-Fed Eyewash Tank** (34L) is a self-contained emergency eyewash unit designed to deliver immediate and continuous eye irrigation in environments without direcct water supply. Built for durability and ease of use, it ensures rapid response.

2. TECHNICAL SPECIFICATIONS

Brand	Raxwell
Model Code	RWEYE35
Product Type	Gravity-Fed Eyewash Tank
Capacity	34 Liters
Material	High-Density Polyethylene (HDPE)
Color	Green Tank with Yellow/Orange Panel
Flow Duration	Approx. 15 Minutes Continuous Flow
Activation	Pull-down / gravity-fed system
Mounting	Wall Mount (Bracket Included)

3. KEY FEATURES

- Chemical-resistant high-density polyethylene tank
- 34 liter capacity for self-sufficient emergeny flushing
- Provides approximately 15 minutes of continuous wa-ter flow· ro
- Simple activation aɪly by pulling the front tray/panel
- Wide-fill opening with threaded cap for easy cleaning and refilling
- Built-in drain hose for maintenance and water discharge
- Includes "J" type wall mounting bracket with fixing scre- ideal for locations without plumbed water supply
- Ideal for locations without plumbed water supply

4. APPLICATIONS

Industrial facilities · Warehouses & logistics centers · Construction sites · Chamical handling areas · Remote or temporary wall locations

5. PACKAGING INFORMATION

Packing	1 Piece per Carton
Net Weight	2.60 kg
Gross Weight/CTN: 3.60 g	
Carton Dimensions: Lengtth, 56 cm, Height: 39 cm	
CBM per Carton: 0.06	
HS Code	7324290

Syecifications may eany slightly depending on production teath or customization,

CABLE SEAL DATA SHEET

ADJUSTABLE PLASTIC CABLE SEAL

Material	Polypropylene (PP)
Cable Length	20 cm (7.87 inch)
Tensile Strength	>12 kg
Numbering	Laser etched serial numbers (customizable)
Colors	Yellow, Red, Green, Blue

Key Features:

- ✔ Adjustable, tamper-evident plastic cable seal
- ✔ > 12 kg breaking strength
- ✔ Laser-etched unique serial numbers for tracking
- ✔ Available in yellow, red, green, and blue colors
- ✔ Widely used for bags, boxes, containers, and meters

METAL CABLE SEAL

Lock Body Material	Aluminum
Cable Material	Galvanized Steel
Cable Diameter	1.8 mm (0.07 inch)
Cable Length	250 mm (9.84 inch)
Tensile Strength	>150 kg
Numbering	Laser etched serial numbers (customizable)
Colors	Yellow, Red, Green, Blue

✓ Key Features:

- ✓ Durable aluminum lock body with 1.8mm steel cable
- ✓ >150 kg breaking strength
- ✓ Laser-etched unique serial numbers for security
- ✓ Color coded for fast identification

✓ Fixed Length Metal Cable Seal

- ✓ Tamper-evident fixed length cable seal
- ✓ 1.5mm steel cable, 30cm fixed length able
- ✓ >100 kg breaking strength
- ✓ Laser-etched unique serial numbers for tracking
- ✓ Color coded for fast identification
- ✓ Ideal for securing containers, trucks, and high-value cargo

SAFETY SOLUTIONS

Professional Industrial Protection Equipment

STANDARD CLEAR FACE SHIELD

HEAVY-DUTY HELMET FACE SHIELD

STANDARD CLEAR FACE SHIELD

- Crystal-clear transparent visor for maximum visibility
- Lightweight ergonomic headband
- Adjustable fit for all-day comfort
- Anti-splash and dust protection
- Minimalist premium black frame design

HEAVY-DUTY HELMET FACE SHIELD

- Impact-resistant full-face visor
- Integrated helmet for head protection
- Adjustable ratchet suspension system
- High-visibility yellow shell for safety coompliance
- Extended chin coverage
- Adjustable ratchet headband system

COMPARISON SUMMARY

	STANDARD SHIELD	HELMET SHIELD
Protection Level	Basic	**Heavy-duty**
Head Protection	**No**	**Yes**
Weight	Lightweight	**Moderate**
Comfort	High	High (adjustable)
Industrial Use	Light-duty	Heavy-duty
Design	Minimal	Premium rugged

RAXWELL

WHY RAXWELL?

- Premium build quality
- Crystal clear visibility
- Ergonomic comfort

RAXWELL
RELIABLE SOLUTIONS • STRONGER SAFETY

PRODUCT DATA SHEET

ELASTIC BUNGEE CORD WITH HOOK

Model: RX-EBCH-01

Durable, flexible and reliable elastic cord designed for securing, fastening and tethering applications.

KEY FEATURES

- ✓ Heavy-duty elastic core for strong stretch and recovery
- ✓ Protective woven outer sleeve for durability and abrasion resistance
- ✓ Corrosion-resistant metal hook with secure screw lock
- ✓ Compact, lightweight and easy to handle
- ✓ Shock-absorbing design reduces strain on attached items

APPLICATIONS

- Cargo securing and transportation
- Warehouse and logistics use
- Outdoor and camping gear fastening
- Industrial safety tethering
- General-purpose tie-down and bundling

TECHNICAL SPECIFICATIONS

Parameter	Details
Product Name	Elastic Bungee Cord with Hook
Model	RX-EBCH-01
Material	Elastic rubber core + woven sheath + metal hook
Hook Type	Carabiner-style hook with screw lock
Color	Black with white pattern
Length (Relaxed)	Customizable 2x90cm
Stretch Capacity	High elasticity
Load Type	10kg
Hook Material	Steel with anti-corrosion coating
Resistance	Abrasion, wear and impact resistant
Operating Temperature	-20°C to +60°C

ADVANTAGES

- ✓ Long service life due to reinforced construction
- ✓ Safe and secure fastening
- ✓ Flexible for various applications
- ✓ Easy installation and removal
- ✓ Reusable and cost-effective

SAFETY NOTES

- Do not exceed the recommended load capacity.
- Inspect cord and hook before each use.
- Do not use for lifting or human support applications.

LED Traffic Baton – Product Datasheet

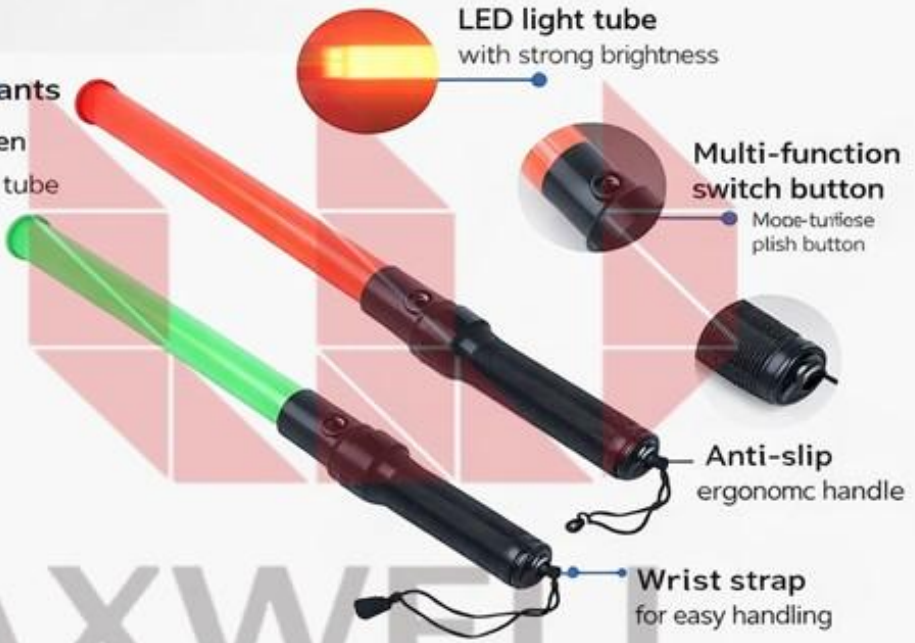

Product Overview

The Raxwell LED Traffic Baton is a high-visibility signaling device designed for traffic control, security operations, emergency response, and crowd management. Built with durable materials and bright LED illumination, it ensure clear visibility in both day and night conditions.

Product Images

Front View & Color Variants

- Available in Red and Green
- High-visibility translucent tube

RAXWELL

Key Features

- **High Brightness LED**
  - Enhanced visibility in low-light and nighttime conditions
  - Uniform light distribution along the baton
- **Durable Construction**
  - Impact-resistant plastic body
  - Weather-resistant design
- **Ergonomic Grip**
  - Anti-slip textured handle
  - Lightweight for prolonged use
- **Safety Wrist Strap**
  - Prevents accidental drops
  - Improves handling control

Technical Specifications

Brand	Raxwell
Product Name	LED Traffic Baton
Light Source	High-intensity LED
Light Colors	Red / Green
Modes	Steady / Flashing Off
Material	ABS Plastic + LED Tube
Power Supply	Battery Operated
Handle Type	Anti-slip grip
Strap	Included wrist rope
Operating Time	Long worting duration

© Raxwell — All rights reserved

Applications

- Traffic control and road safety
- Security personnel signaling
- Parking management
- Emergency response teams
- Event and crowd control

Packaging Details

- 1 × Raxwell LED Traffic Baton
- 1 × Wrist Strap
- User-ready packaging
